

UPDATE

12/17/2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 30 residents and 22 staff members test positive for COVID-19. 25 residents have recovered as well as 20 staff. Currently we are testing employees two times per week. We have one new confirmed COVID-19 infection, the resident was tested 12/15/20, we received the results today (12/17/20). The resident was moved to the eastside for isolation. We also had new employee test positive 12/11/20, the employee is self-isolating at home. We are still operating the COVID hall on the east side, we currently have 22 residents. The staff on the east side are isolated and do not come in contact with any staff on the west side.

We are allowing essential care giver visitation. The regulations for these types of visits were sent in our past email, if you would like another copy please reply to this email. If you would like to schedule an essential care giver visit, please email our social worker Tiffany Blackstock at t.blackstock@fundlhc.com. The facility will be performing point of care COVID antigen testing for essential care givers due to testing difficulties out in the community.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (972) 231-8833.

Sincerely,

Kamran Mubashir
