

WEEKLY UPDATE

May 29, 2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update to keep you informed about the status of COVID in our facility and what we are doing to keep our residents and staff safe during the ongoing coronavirus pandemic.

We have not had any additional confirmed cases of COVID-19 this week. In total there have been 22 residents and 10 staff members that tested positive for COVID-19 since the start of the pandemic. Five of those residents have recovered and we are awaiting test results for residents re-tested. We are excited that five staff members have returned back to work.

We remain committed to preventing further spread of this virus throughout our community, and as we previously reported, we will continue to implement and practice enhanced safety precautions recommended by our federal, state and local health officials, such as, only allowing essential personnel inside the facility, performing regular screenings for signs and symptoms of illness prior to entering the building, continually monitoring residents, performing regular deep cleanings, using PPE as recommended by the CDC, providing individual activities as opposed to group activities, implementing isolation protocols as required, and reminding and encouraging staff to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community.

As a reminder, we will continue to post updates on our facility website and we will individually notify representatives/families regarding a resident's condition if he/she tests positive for COVID-19 or is displaying symptoms of COVID-19. If you have any questions or concerns please contact us directly 972-231-8833.

Sincerely,

Walter Reed

Walter Reed
Interim Administrator
